● Instructions

Connect the product according to the assembly diagram and power on.

A Bluetooth speaker function

1, Long press ⏻/▶❚❚ for 3 seconds to turn on the device, accompanied by a prompt tone, the

Bluetooth indicator light ⏻/▶❚❚ flashes slowly in blue, and a voice prompt appears: Bluetooth mode. The product enters the waiting state for pairing. If pairing fails, the Bluetooth indicator light flashes for 30 seconds and then turns off. The product is in the waiting state

for pairing. Long press the power button ⏻/▶❚❚ for 5 seconds again to turn off the device, accompanied by a prompt tone.

2，Turn on the Bluetooth function on your phone, search for the Bluetooth name ″REMO1
″, and pair. After pairing is successful, ⊙/▶‖ the blue light will be on and the voice prompt
″Connected″ will be heard.

3，Open tracks on your phone and play music. You can control the music on
your phone or on the Remo1E operation panel to control the previous track, next
track, volume down, volume up, play/pause, etc.

4，Press and hold ⊙/▶‖ for 3 seconds to disconnect the Bluetooth connection.
The Bluetooth indicator light ⊙/▶‖ flashes slowly and a voice prompt appears:
Disconnect the Bluetooth connection. The phone needs to be paired and connected again
before music can be played.
